U.S. law requires that we have written documentation of financial support for all international students. We must receive this documentation before we can issue form I-20, which you need to apply for a student visa or to transfer from one school to another within the U.S.

- We require bank proof of support for one year of study in the form of a bank statement (checking/savings accounts) with sufficient funds or bank letter indicating that the required funds will be available. **DO NOT** submit long bank statements that include transaction history. The bank statement must belong to the person who is signing the Declaration of Finances form under **Certification**.
- All forms of documentation must be on official letterhead from the institution issuing the document and include the type of account, type of currency, and the equivalent USD amount or provide a reliable USD currency conversion. The documentation must be dated within the last 3 months. English translations are also required.
- Your parent or sponsor must sign in the space indicated, under "Certification." If you are receiving a government or private scholarship, a separate letter may be submitted. The letter must include the amount available for tuition, books and supplies, health insurance, and living and personal expenses.

The following documents are NOT accepted:

- Statements verifying employment and salary
- Insurance premiums and policies
- Property or personal assets (automobiles, land, buildings, jewelry, etc.)
- Lines of credit
- Assets such as investments, stocks, bonds, equities, pension/retirement accounts
